SUMMARY

Innovative and skilled Web and Flutter Developer with hands-on experience in developing and maintaining web and mobile applications. Proven ability to solve complex problems and adapt to virtual work environments. Proficient in a variety of programming languages and technologies, with a strong academic background and practical experience in leading projects and teams. Demonstrated leadership in coordinating large-scale technical events and managing teams effectively.

EXPERIENCE

Web Developer Intern | Let's Grow More

Location: Remote (Virtual Internship) | May 2024
- Developed and maintained web applications using React.js, HTML, and CSS.
- Demonstrated strong problem-solving skills and adaptability in a virtual work environment.

Flutter Developer Intern | Codsoft

Location: Remote (Virtual Internship) | Jun 2024
- Developed and maintained flutter applications.

SKILLS

Web Development: HTML, CSS, JS, Angular-JS, React-JS, PHP
Application Development: Flutter, Android
Programming Languages: JAVA, Python
IoT: Arduino

EDUCATION

Bachelor Of Engineering (PURSUING) | Gujarat Technological University (GTU) | Gujarat, IN | 2025 | Current CGPA: 8.39
12th-Science with Mathematics | Gujarat Secondary & Higher Secondary Education Board, Gandhinagar | Gujarat, IN | 2021 | 78.61 pr
10th | Gujarat Secondary & Higher Secondary Education Board, Gandhinagar | Gujarat, IN | 2019 | 95.69 pr

PROJECTS

Technokruti

S. N. Patel Institute of Technology & Research Center | https://technokruti.snpitrc.ac.in/ | April 2024
- **About:** As the lead developer for Technokruti, I crafted an engaging platform with HTML, CSS, and JavaScript, PHP, highlighting its essence. Simultaneously, I spearheaded a comprehensive admin panel, facilitating efficient role management for administrators, coordinators, and volunteers. This included overseeing participation lists by event and tracking online/offline earnings, empowering administrators with valuable insights and control over financial activities, and ensuring a seamless user experience and efficient platform operation.
- **Tech Stack:** HTML, CSS, JS, PHP, MYSQL, phpMyAdmin

Budapest Pub Crawl

TriadByte | https://budapestpubcrawls.com/ | November 2023
- **About:** As the primary front-end developer for Budapest Pub Crawl, I spearheaded the creation of an international booking platform, employing HTML, CSS, and JavaScript to showcase Budapest's vibrant nightlife. Leveraging PHP and MySQL through phpMyAdmin, I ensured seamless functionality, facilitating travelers' experiences and fostering unforgettable memories.
- **Tech Stack:** HTML, CSS, JS, PHP, MYSQL

PreToll (Android Application)

S. N. Patel Institute of Technology & Research Center | August 2023 - October 2023

- **About:** As the developer for the PreToll app, I orchestrated the implementation of a user-centric platform utilizing Java and Google APIs (Places API, Routes API, Places API, Roads API, Geocoding API, Maps Embed API) within Android Studio. This application streamlines road travel by providing precise toll calculations, real-time route planning, and cost breakdowns, alleviating travel complexities and eliminating toll-related stress for road travelers.
- **Tech Stack:** JAVA, Google Maps API (Places API, Routes API, Places API, Roads API, Geocoding API, Maps Embed API), XML, Android Studio

Personal Finance Tracker (Flutter)

Codsoft | /JatinParmar27/CodSoft/tree/main/personal_finance_tracker | June 2024 |

- **About:** Developed a comprehensive Personal Finance Tracker application using Flutter and Dart, aimed at helping users manage their finances efficiently. The application allows users to track their income, expenses, and transactions, providing an intuitive and user-friendly interface for managing personal finances.
- **Tech Stack:** Flutter, Dart, Provider(State Management)

Chat Application (Flutter)

Codsoft | June 2024 | Currently working on it

- **About:** Developed a real-time chat application using Flutter, offering seamless one-on-one and group chat functionality. The application supports user authentication, chat room creation, real-time messaging through WebSocket technology, multimedia sharing, and push notifications, ensuring a comprehensive and engaging user experience.
- **Tech Stack:** Flutter, Firebase Authentication, Firebase Cloud Messaging , Web Socket, Dart

Event Coordination & Leadership Experience

Internshala Student Partner
Let's Upgrade Student Ambassador
Team Lead For Design Engineering (for 2 year)
Technokruti 2024 (A National Level Technical Festival)
